- ◆ No reduction in sensitivity test against the UK, South African, Brazilian, Delta variant and Omicron.

EU HSC mutual recognition (RAT)

UK GOVERNMENT VALIDATED

The UK Government Public Health England, joint PHE Porton Down and University of Oxford was independently evaluated over 140 lateral flow devices that have been referred by the Department of Health and Social Care (DHSC). Only a few can pass the phase 3A trials, and our DEEPBLUE even have passed phase 3B. That means our test has very high accuracy at multiple viral loads and able to detect the asymptomatic patients and the new different variants.
